

Aircraft Recovery Tow Kit

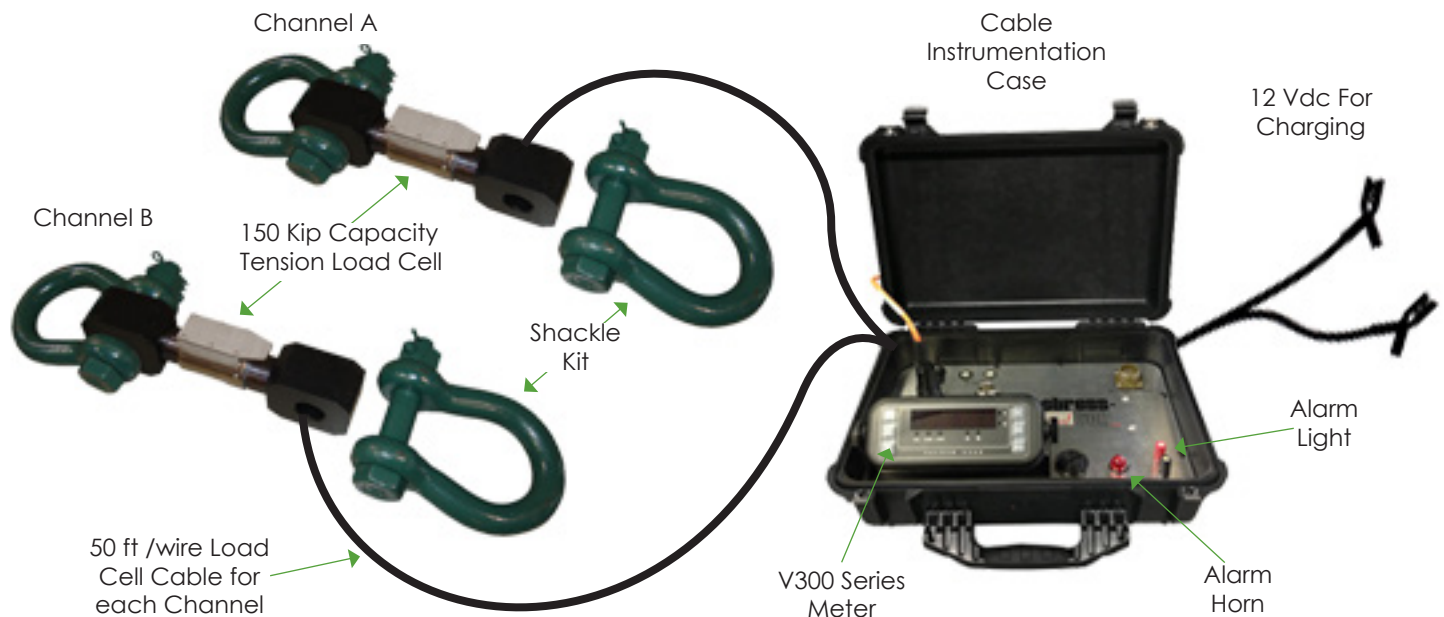

(U.S. Air Force photo by Staff Sgt. Matthew Lohr)

The Aircraft Tow Kit connects to the landing gear for safely maneuvering aircraft from non-runway conditions without damaging components or adding additional downtime.

This system comes complete with load cells, connecting shackle hardware and display meter that shows a live readout of towing forces as they are applied. The electronics is packaged in a portable carrying case for ease of use.

Available system Capacities:

- 50,000 LB per load cell
- 75,000 LB per load cell
- 100,000 LB per load cell
- 150,000 LB per load cell
